Émile Reynaud already mentioned the possibility of projecting the images in his 1877 patent application for the praxinoscope. He presented a praxinoscope projection device at the Société française de photographie on 4 June 1880, but did not market his praxinoscope a projection before 1882. He then further developed the device into the Théâtre Optique which could project longer sequences with separate backgrounds, patented in 1888. He created several movies for the machine by painting images on hundreds of gelatin plates that were mounted into cardboard frames and attached to a cloth band. From 28 October 1892 to March 1900 Reynaud gave over 12,800 shows to a total of over 500,000 visitors at the Musée Grévin in Paris.

Sound : In the 1920s, the development of electronic sound recording technologies made it practical to incorporate a soundtrack of speech, music and sound effects synchronized with the action on the screen.citation needed The resulting sound films were initially distinguished from the usual silent moving pictures or movies by calling them talking pictures or talkies.citation needed The revolution they wrought was swift. By 1930, silent film was practically extinct in the US and already being referred to as the old medium.citation needed

The Chinese film industry had lost US billion by March 2020, having closed all its cinemas during the Lunar New Year period that sustains the industry across Asia.2 North America saw its lowest box office weekend since 1998 between March 13–15.3 Demon Slayer: Mugen Train, the highest-grossing film of 2020, earned 3 million worldwide.4 It was the first time since 2007 that the top-grossing film of a given year had earned less than billion and the
